Red Vector Announces Integration with KnowBe4 to Enhance Proactive Insider Risk Reduction

Valley Forge, Pennsylvania – April 3, 2025—Red Vector, a global leader in insider risk analytics and workforce resilience solutions, today announced an integration with KnowBe4, the world-renowned cybersecurity platform that comprehensively addresses human risk management. This collaboration empowers organizations to take a proactive approach to identifying and mitigating insider risks.

Insider threats remain a critical challenge for organizations, with human behavior often being an overlooked early risk indicator. By integrating with KnowBe4's platform, Red Vector's Fulcrum solution leverages advanced insider risk analytics to provide deeper visibility into workforce vulnerabilities and delivers actionable insights to reinforce targeted security awareness programs.

Key Benefits of the Integration Include:

- **Enhanced Visibility:** Organizations can identify potential insider risks earlier by correlating workforce behavioral insights from Red Vector's Fulcrum with KnowBe4's security training metrics.
- **Targeted Training:** Red Vector insights enable organizations to tailor KnowBe4 training programs to address specific risk areas and individual employee needs.
- **Streamlined Incident Response:** The integration simplifies workflows by aligning behavioral risk data with training and awareness strategies, ensuring a cohesive approach to workforce security.
- **Proactive Risk Management:** Organizations gain the tools to transition from reactive to proactive strategies, reducing the likelihood and impact of insider threats.

"The integration with KnowBe4 marks a significant milestone in our mission to help organizations monitor, measure, and manage human risk within their workforces," said Stephen Layne, Chairman and CEO of Red Vector. "By combining Fulcrum's insider risk analytics with KnowBe4's industry-leading training platform, we're enabling organizations to create a safer, more resilient workforce."

Stu Sjouwerman, CEO of KnowBe4, added, "We're thrilled to collaborate with Red Vector to provide our customers with innovative tools that enhance their ability to combat insider risks. Together, we're equipping organizations with the insights and training to stay ahead of evolving threats." The Red Vector and KnowBe4 integration is now available to joint customers.
